

This document is meant to serve as a description of particular evaluations to aid both the Court and Providers in achieving more consistency and as an aid to Consumers in understanding the process and potential costs involved. It is always the Court's choice as to whether or not a particular evaluation should be ordered. Nothing in this document is meant to mandate that any particular evaluation *must* be performed in a given situation.

Assessment Description	Questions to be answered	Specific Assessments Utilized	Estimated Cost
Level I Mental Health Screening (1-2 hours)	Appropriate Diagnosis, if any Is there a need for treatment? How can they benefit from treatment or further evaluation?	Clinical Interview Brief History Mental status	\$195
